

Notes from the Editor-in-Chief

Mirjana Radović-Marković

JWE encourages multidisciplinary research because combining the approaches of two or more disciplines. Therefore, in its content one can find most current topics which are being analyzed from the economic, psychological or other aspects.

This Journal is an international one, considering its international editorial staff and authors. It comes out twice a year in English and it is published by Institute of Economic Sciences, Belgrade.

We ask authors to quote papers from our journal properly, as well as to send us the papers that have not been published yet. The responsibility for plagiarism is solely of the author. This is why we are introducing one new procedure this year – all authors, whose papers are being considered to be published, will fill in one form concerning the originality of the paper.

We would like to express our gratitude to prof. dr Neila Holland from Stratford University in the United States who accepted our invitation to be a guest editor.

At last, we want to remind you to follow the author's guide and to send your papers to the e-mail jweoffice@ien.bg.ac.rs.
